

ISO-LATERAL LAT PULL DOWN AND LOW ROW

The **Maxfit Maximus NX Iso-Lateral Lat Pull Down & Low Row** is a premium **dual-function commercial back machine** engineered to deliver complete **upper and mid-back development** through smooth vertical and horizontal pulling mechanics. Designed for powerful lat activation, enhanced scapular movement, and balanced upper body strength development, the machine combines biomechanical precision, ergonomic control, and heavy-duty performance for elite training environments.

- ✦ Supports **lat pulldown, high row, and low row** exercises
- ✦ Independent iso-lateral movement arms for **unilateral and bilateral training**
- ✦ **Converging pulling trajectory** for enhanced back contraction
- ✦ **Hydraulic-assisted vertical seat adjustment** for ergonomic positioning
- ✦ **Upper support plates** for stable high & low row execution
- ✦ **Premium rotating handles** for varied grip positions and muscle recruitment
- ✦ Smooth and biomechanically efficient pulling mechanics

Targets latissimus dorsi, rhomboids, trapezius, rear deltoids, and biceps

Dimensions (L x W x H): 2235 x 1560 x 2320 mm
Net Weight: 260 kgs
