

CVL LEG PRESS HACK SQUAT

The **MAXFIT CVL Leg Press Hack Squat** combines two of the most effective lower-body exercises into one compact, space-efficient machine. Designed for **complete quadriceps, glute, hamstring, and calf development**, it allows users to seamlessly switch between Leg Press and Hack Squat training while maintaining proper biomechanics, stability, and comfort. Its heavy-duty construction and smooth guided movement make it ideal for commercial gyms, clubhouses, and serious strength-training facilities.

- ✦ Dual Workout Station – Leg Press and Hack Squat in one machine
- ✦ Adjustable Back Support for enhanced exercise comfort
- ✦ Large Anti-Slip Footplate for secure foot positioning
- ✦ Compact Space-Saving Design for modern fitness facilities
